

Winter - Spring 2018

Inorganic Discussion Group

UNIVERSITY OF BRITISH COLUMBIA

Seminars occur on Wednesdays at 5:00 PM in Chemistry D300

Date	Speaker & Title	Host
Jan 17	Paul Ragona – Western University An Examination of Phosphinidene Chalcogenide Chemistry: Versatile Low Coordinate P(III) Units	Zac Hudson
Jan 31	Damon Gilmour – UBC Harnessing Catalytic Routes Towards New Alternatives to Polyethylene	Laurel Schafer
Feb 7	Ingo Krossing – University of Freiburg Chemistry with Weakly Coordinating Anions	Derek Gates
Feb 14	Peixi Wang – UBC Liquid Crystalline Tactoids: The Microscopic Emergence of Order	Mark MacLachlan
Feb 28	Suzanne Bart – University of Purdue Utilization of Redox-Active Ligands in the F-Block: From Lanthanides to Uranium and Beyond	Laurel Schafer
Mar 14	Guillaume Beaulieu-Houle – UBC Supramolecular Assemblies Using Bipyrimidine Ligands	Mark MacLachlan
Mar 28	Chris Brown – UBC Two-level Tuning – The Changing Colour of Complexes with Sulfur- bridged Ligands	Michael Wolf
Apr 11 In D215	Kevan Dettelbach – UBC Photodeposited Functional Thin Films	Curtis Berlinguette
Apr 25 In D215	Tengfei Li – UBC Organic Chemistry at Inorganic Surfaces	Curtis Berlinguette
