

WINTER – SPRING 2023 INORGANIC DISCUSSION GROUP

THE UNIVERSITY OF BRITISH COLUMBIA
Wednesdays at 5:00 PM in Chemistry D300

Date	Speaker & Title	Host
Jan 25	Kudzi Nyamayaro – UBC Modulating the Properties of Cellulose Nanocrystal to Achieve Increased Material Integration in Biodegradable Electronics	Parisa Mehrkhodavandi
Mar 1	Georgii Nikonov – Brock University Activation of Small Molecules on Al(I) and Ga(I) Carbenoids: from Bond Cleavage to Coupling Reactions	Derek Gates
Mar 8	Shigekazu Ito – Tokyo Institute of Technology Studying Radical Reactions of Phosphorus Heterocycles at TRIUMF	Derek Gates
Mar 29	Tian Zhang – UBC Diblock Copolymers of Phosphaalkene and Styrene from Living Anionic Polymerization and Initiation Studies	Derek Gates
Apr 12	Marcus W. Drover – The University of Windsor Exterior Decorating: Lewis Acid Secondary Coordination Spheres for Cooperative Reactivity	Laurel Schafer
