

FALL 2018

CHEMICAL BIOLOGY

DISCUSSION GROUP

THE UNIVERSITY OF BRITISH COLUMBIA

SEPTEMBER 20th

Invited Speaker

**Microbial Natural Products in Drug Discovery:
From Fungal Gene Activation to Melanoma Treatments**

Dr. Sandra Loesgen

Assistant Professor
Department of Chemistry
Oregon State University

NOVEMBER 22nd

Graduate Speaker

**Towards the Development and Discovery of
TcTS Inhibitors for Treatment of Chagas Disease**

Kyle Robinson

Supervisor: Dr. Stephen Withers
Department of Chemistry
University of British Columbia

OCTOBER 25th

Graduate Speaker

**Integration of Confocal Raman and Interferometric
Scattering Microscopies for Analysis of Biological and
Complex Specimens**

Luke Melo

Supervisor: Dr. Ed Grant
Department of Chemistry
University of British Columbia

NOVEMBER 29th

Graduate Speaker

**Cell Surface Engineering with Glycocalyx Mimicking
Polymers to Promote Localized Immunosuppression**

Erika Siren

Supervisor: Dr. Jayachandran N. Kizhakkedathu
Department of Chemistry and Centre for Blood Research
University of British Columbia

All events will be held in D300 (2036 Main Mall).

The speaker will begin promptly at 6:30 pm.

All are welcome to come after 6:15 pm for refreshments
