

DANGER!

RESTRICTED ACCESS

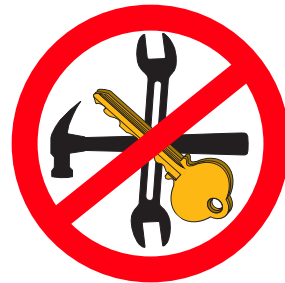

**Strong Magnetic Field
The Magnet is Always On!**

Pacemaker and Metallic Implant Hazard

Strong magnetic field and radio-frequency fields are present that could cause serious injury or death to persons with certain metallic, electronic, magnetic or mechanical implant devices, such as pacemakers and prosthetic parts.

Such persons must not enter this area.

Loose Metal Objects and Magnetic Media

Tools and equipment, magnetic media and ATM/credit cards

Strong magnetic fields are present that could erase magnetic media such as disks and tapes, disable ATM/credit cards and damage some watches. It can cause some magnetic objects to fly toward the magnet body, causing personal injury and/or property damage.

Electronic objects such as hearing aids, cell phones and beepers may also be damaged. Objects made from ferrous metals and magnetic media must not be taken into this area.
